To Whom It May Concern:

We are graciously sending you this letter to inform you of your outstanding business set forth through what you call MarkeTel Systems. The great things that have come from the dialing system are outrageous as well as high in numbers. We would love to send you a letter that would consist of many pages of all the company's great doings but, time and money, of course is the **key** to all dialing/call centers. We would like to first congratulate you on a business well ran with nothing other than an **Exceptional Customer Service Department**, that does handle and care for each and every customer as well as problem or question. Second, not only the time and money that we have saved and that we have earned but, the enormous amount of respect that we have gained in our company do to the services and products you have supplied us. We cannot even begin to tell you how **Satisfied** and **Overwhelmed** in joy we are with your services. Each and every time we have called to consult with one of your representatives, weather it be at the time of purchase of your product or, weather it be just for questions, concerns or inquiries we might have about your system- - **We Have Always Been Provided With Outstanding Technical Support as well as Customer Service** from the MarkeTel Systems Family! We definitely will be happy and satisfied customers of MarkeTel for many years to come. We are sure that in the future to come, both our companies- - WorldWide Vacations & Tours and MarkeTel Systems will be bigger, larger and more prosperous than we have ever imagined.

Again, we thank you for you Services, Technical Support, Customer Service and Help!

Thank you,

WorldWide Vacations & Tours
