Marketel Systems  
Attn: Mike McAllister

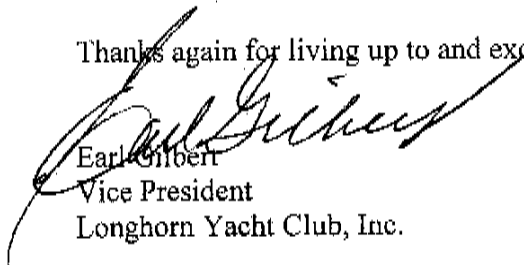

Dear Mike,

I enjoyed talking with you a few days ago and just wanted to let you know how pleased we at Longhorn Yacht Club have been with the dialing system we have been using.

We have been using the Predictive Dialing system from your firm for a number of years and have had absolutely no problems whatsoever. It has performed even better than we were led to believe.

Not being familiar with the overall workings of the system has never been a problem. The times I have needed assistance in installing names etc. into the system, the technical support staff have been super. They never even made fun of me for my lack of computer knowledge.

Thanks again for living up to and exceeding our expectations.

Earl Gier  
Vice President  
Longhorn Yacht Club, Inc.
